

## Candle Holders

I found the furniture feet used in this project at Home Depot for around \$4.50 each.

To make the candle holders, you'll need:

1. Wooden furniture feet,
2. Drill,
3. 3/4" woodboring drill bit,
4. Spray paint,
5. Primer,
6. Pliers, and
7. Sandpaper.

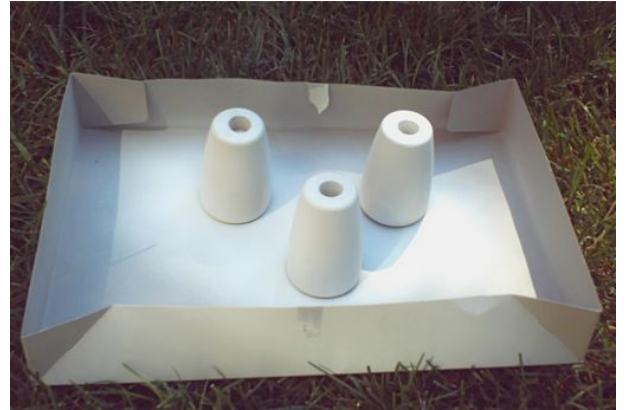

1. Remove the screws from the furniture feet with the pliers.

2. Use the woodboring drill bit to drill 3/4" holes in the furniture feet.
3. Sand any rough spots.

4. Prime the candle holders.

5. Paint a fun color.
